JETS IN BUSINESS

Building on our inaugural season, our Corporate Sporting Network is designed for local Newcastle Businesses to build valuable relationships and be part of a strong and collaborative network.

Jets in Business provides our members the opportunity to connect with our esteemed network of local and national businesses and showcase their business outside of matchdays.

By joining our 25-26 Jets in Business you have the opportunity to promote and grow your business by interacting with like-minded executives at our range of exclusive events.

Join us as we continue to elevate to new heights in business connection and community stakeholder engagement.
